

The Mammal Society of Japan

The Mammal Society of Japan was founded in 1987 for the purpose of promoting and fostering the study of mammals. It does so by publishing quarterly “Mammal Study” in English and semiannually “Honyurui Kagaku” (Mammalian Science) in Japanese, respectively, and by holding a meeting annually which includes symposia and discussion on all aspects of mammalogy.

Membership of the society is open to all who are interested in mammalogy and wish to receive “Mammal Study” and “Honyurui Kagaku”. Institutions may not become a member but may subscribe to the publications.
